

# Neighborhood Healthcare Gala

St. Catherine Labouré Medical Clinic  
Celebrates Neighborhood Healthcare with the Inaugural  
G. Fred DiBona, Jr. *Excellence in Healthcare* Award

## What

Join us as we celebrate the 10<sup>th</sup> anniversary of St. Catherine Labouré Medical Clinic on **April 24, 2010** at the Doubletree Hotel Philadelphia. We're celebrating 10 years of providing compassionate and quality health care to the uninsured of Philadelphia by honoring Ann S. Torregrossa Esq. with the **Inaugural G. Fred DiBona Excellence in Healthcare Award**. Ann S. Torregrossa Esq. is the Director of Pennsylvania Governor's Office of Health Care Reform (GOHCR), and has spent her career helping to make certain the uninsured had a voice with regards to healthcare.

## Why

St. Catherine's mission is: Grounded in faith, as a matter of justice, St. Catherine Labouré Medical Clinic provides compassionate, high quality comprehensive, primary medical care in a dignified manner solely to those without health insurance, regardless of ability to pay our nominal fee.

Believing that poverty does not reduce humanity, we serve those marginalized from the healthcare system, caring for the physical, psychological, and spiritual health of our patients, as well as providing health education, counseling, social work, and advocacy.

With approximately 170,000 adults in Philadelphia without health insurance, the need to provide health care to those marginalized from the healthcare system is immense. Our patients do not qualify for medical assistance or welfare and fall between the cracks of an already tattered healthcare system. St. Catherine's is the safety net needed by those sidelined by the systems currently in place.
